Looking after our world (p.103)

1 We must look after the forests. More than half the world's plants and animals live in forests. Many medicines come from these plants. We need forests, but all around the world, people are cutting down trees. They use the trees to make paper and furniture. You can help save the forests. Don't waste paper.

2 People, animals and plants need clean water. We drink water and we wash with it. Plants must have water to grow. We must look after the lakes and rivers. We mustn't waste water. Turn off the water when you clean your teeth. Baths use more water than showers. Take a shower, not a bath.

3 We must look after our 4 towns and keep them clean. People don't like dirty streets – they're ugly. Children can't play in playgrounds with a lot of litter – they can have accidents. You can help. Don't throw litter in the park or the street. Take it home or put it in a bin.

4 We need clean air. Dirty air makes people sick. In 1952 many people got very sick in London because the air was dirty. Today London's air is much cleaner but cars still make it dirty. You can help. Don't always go by car. Walk or ride a bike.
